

Small UFO has landed

A small-sized (shining white) UFO swooped down from the sky, passing through the main temple gate with zigzag (arched) motions, and it horizontally flew over the 21 stone steps to finally land in a slight depression on the soft ground beside the steps. My friend and I precisely measured the dimensions of the gate and the stone steps in order to make detailed video analysis. Our computations revealed that the size of the UFO was approx. 6 X 9 cm(2.5x3.5 inches), and it was traveling faster than 80.2 km(50 miles) per hour, that which proved it was neither an insect nor a bird. We also found that, by close examinations of frame-by-frame still images, the UFO had three dome-shaped hemispheres on its surface, and on the whole, it was shaped like a slightly-curved boomerang. The location of the sighting was in Kamakura (middle part of Japan).

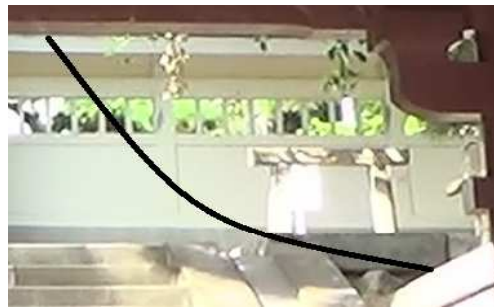

Trajectory of the UFO (from upper left to the middle of the gate)

Trajectory painted in white color.

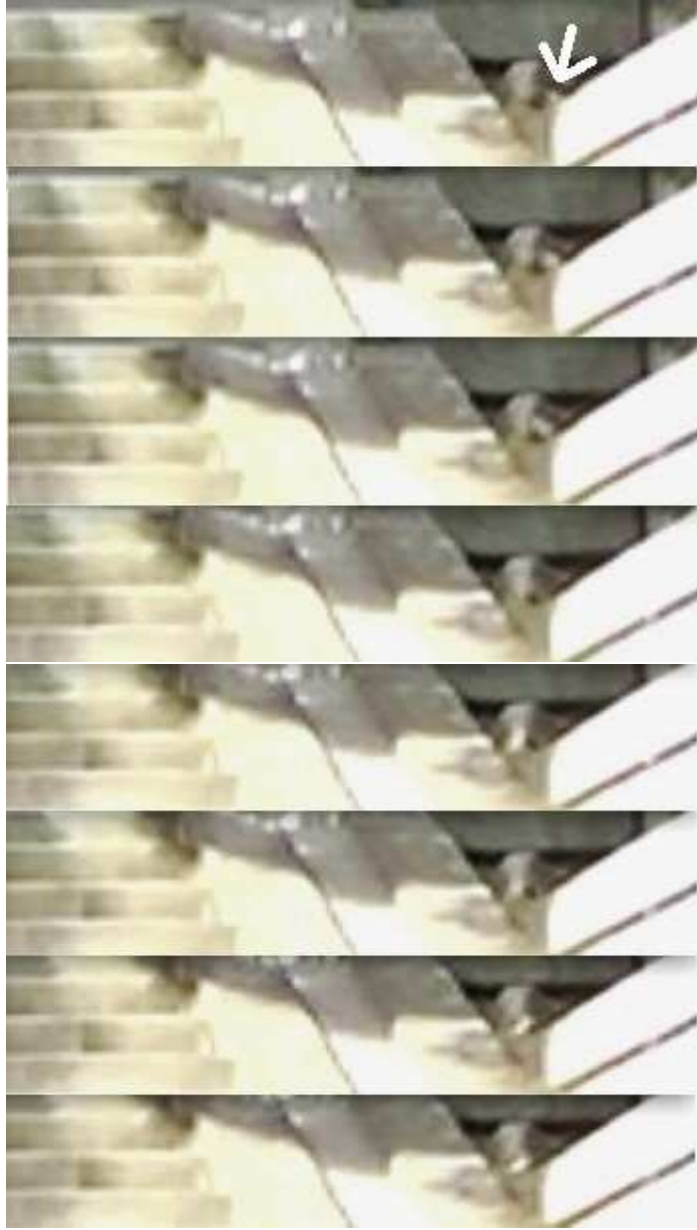

The slight depression (bottom right) where the UFO landed. It looked as if the UFO flew down, but it actually flew almost horizontally above the stone stairs.

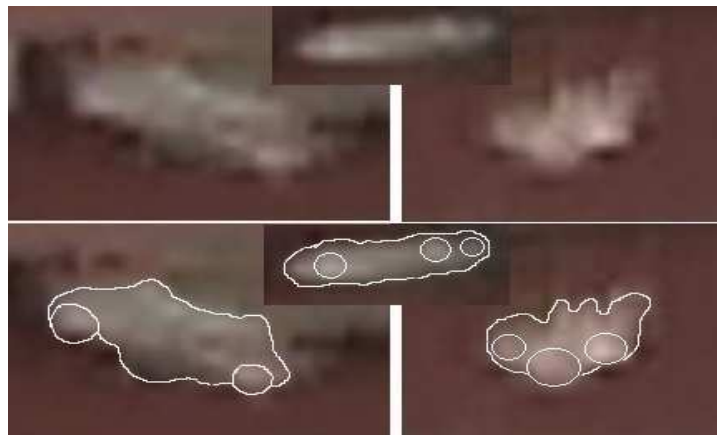

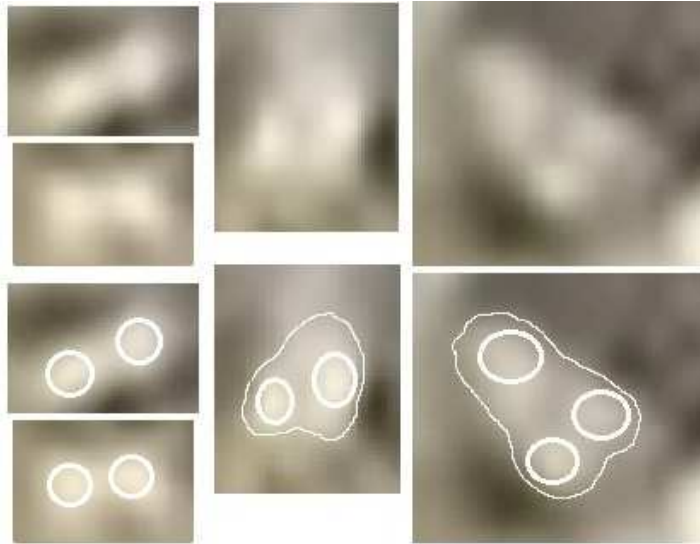

Although the quality of the video on Youtube is not very good, here is the URL link;

Still images from the video.

UFO images in grayish background (on the ground) and dark violet background (under the temple gate)

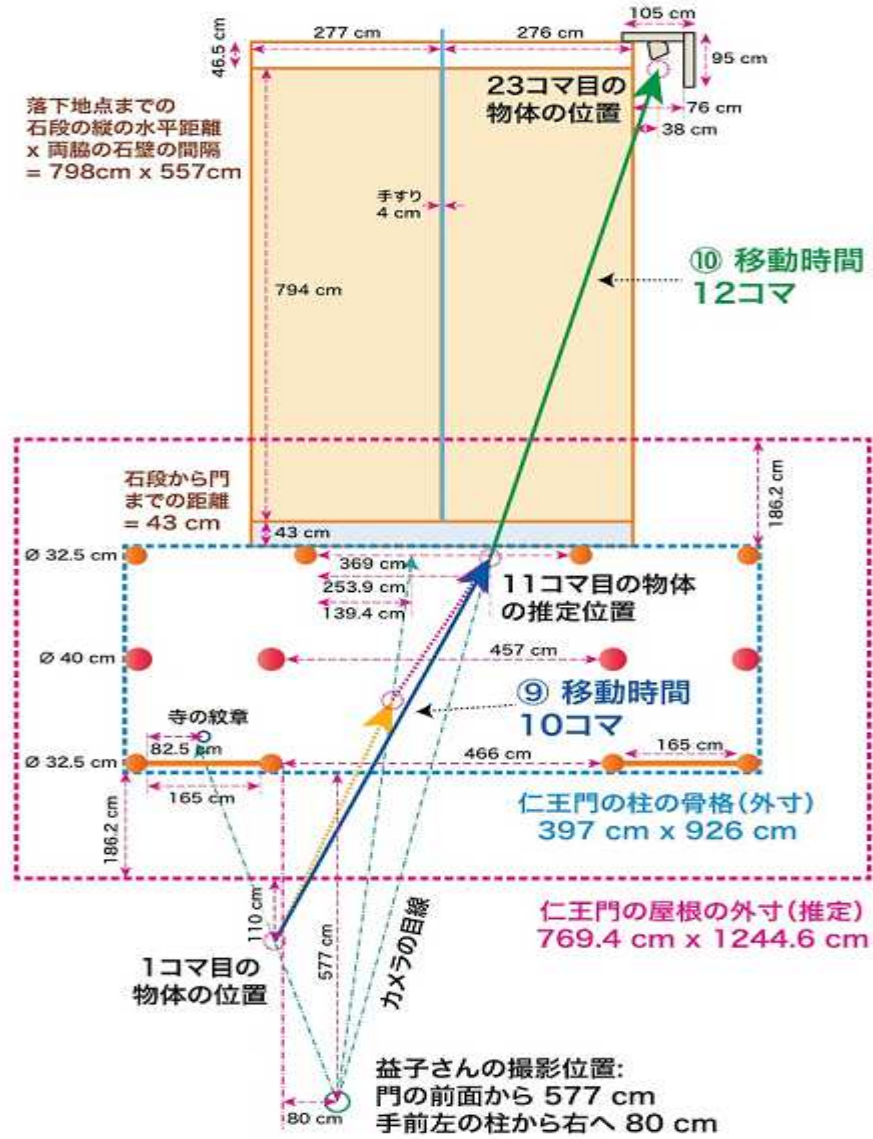

Presumed shape of the UFO (bottom and front side)

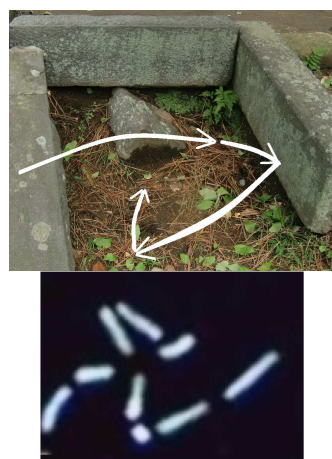

UFO's movement from temple gate through the top of the stone stairs

It was strange that the trajectory of this small UFO closely resembled another UFO that I videotaped near Mt. Tokachi-dake (northern part of Japan) three month earlier.

The trajectory in the right is that of Tokachi-dake UFO.

Here is the URL of Youtube on Tokachidake UFO
<https://www.youtube.com/watch?v=3GuFS54VVfQ>

On Mt. Tokachi-dake, before a UFO appeared, one young lady (with long black hair in white clothes) appeared from nowhere, who spoke nothing before she vanished into the night without trace. Soon after that, the UFO came from the exact direction she was looking at. And this time at Kamakura temple, suddenly the same-looking lady appeared and started to go up the stone stairs, then the small UFO flew down as if it were following her. I had a strong feeling that those two young ladies were indeed the same person.
